SUBJECT Description of the Airfield at
Bodenhagen on the Polish Coast

NO. OF PAGES 1

PLACE ACQUIRED [REDACTED] 25X1A

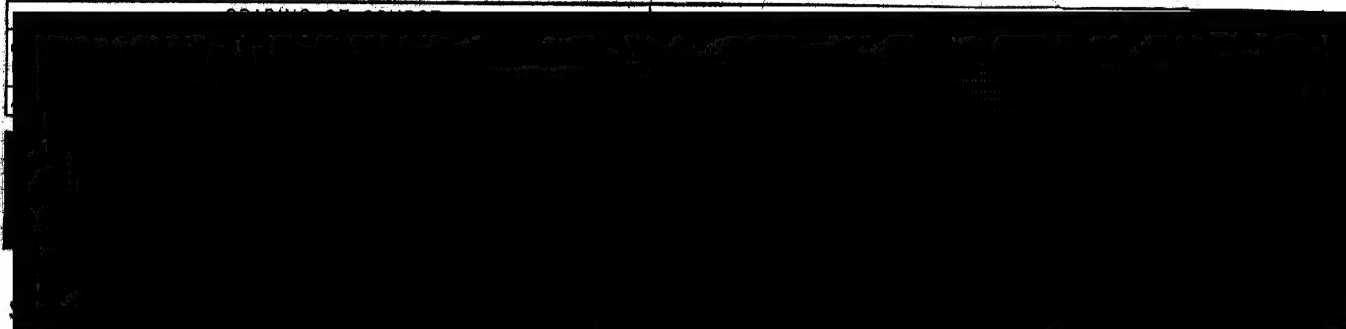

NO. OF ENCLS. 1 sketch
(LISTED BELOW)

25X1A

DATE OF [REDACTED]

SUPPLEMENT TO
REPORT NO. [REDACTED]

25X1X

1. The attached sketch shows the airfield and the railway station at Bodenhagen. The Bodenhagen railway station shown here is the station shown at the top of the sketch [REDACTED] The munitions factory [REDACTED] is about 400 meters south of the railway station, and the railway track leading south from the station goes into the factory. The small squares shown along the coast on the attached sketch are fishermen's huts. 25X1A
2. The runway area on the Bodenhagen airfield is 700 to 800 meters long and 200 to 300 meters wide. The runways are not cemented or asphalted, but are macadamized with crushed stone base and a gravel surface, rolled very hard. The airfield, the fuel depot, and the barracks are surrounded by barbed wire.
3. There is a bomb dump in the forest southeast of the airfield above. The bombs stored here are about 4 meters long and 60 centimeters in diameter, and, according to [REDACTED] resemble aerial torpedoes. 25X1A
